

Name: _____

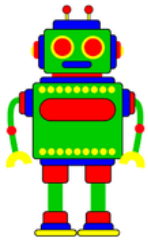

Sales Tax

Calculate the total cost of each item if the sales tax is 13 percent.

$\$5.00 \times 0.13 = \0.65 so Total Cost: $\$5.00 + \$0.65 = \$5.65$

$\$5.00$

$\$10.00$

$\$1.00$

$\$12.00$

Name: _____

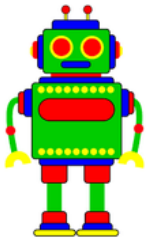

Sales Tax: Answer Key

Calculate the total cost of each item if the sales tax is 13 percent.

\$5.00

$$\$5.00 \times 0.13 = \$0.65 \text{ so Total Cost: } \$5.00 + \$0.65 = \$5.65$$

\$10.00

$$\$10.00 \times 0.13 = \$1.30 \text{ so Total Cost: } \$10.00 + \$1.30 = \$11.30$$

\$7.00

$$\$7.00 \times 0.13 = \$0.91 \text{ so Total Cost: } \$7.00 + \$0.91 = \$7.91$$

\$12.00

$$\$12.00 \times 0.13 = \$1.56 \text{ so Total Cost: } \$12.00 + \$1.56 = \$13.56$$
